Professional Summary

Senior Software Engineering and IT Leader with 13+ years of experience delivering scalable web, mobile, and microservices products across e-commerce, fintech, travel, and enterprise domains. Expert in full-stack architecture (Node.js, NestJS, TypeScript, React, Vue.js, PHP/Laravel) and cloud engineering (AWS, Docker, Kubernetes/EKS). Proven track record of leading cross-functional teams of up to 20 engineers, standardizing agile methodologies, and delivering high-value business outcomes, including a 20% infrastructure cost reduction, 30% faster deployments, and 20%–60% productivity gains. Experienced in international software delivery (on-site in Tokyo, Japan) and utilizing AI-native workflows to optimize lifecycle throughput.

Core Skills

- **Backend Engineering:** Node.js, NestJS, Express.js, Laravel (PHP), REST APIs, GraphQL, Microservices, System Design
 - **Frontend Engineering:** React.js, Next.js, Vue.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
 - **Cloud & DevOps:** AWS (Lambda, EKS, RDS, SQS, CloudWatch), Docker, Kubernetes, CI/CD, GitHub Actions
 - **Databases & Storage:** PostgreSQL, MySQL, Redis, In-Memory Caching
 - **Methodologies & Tools:** Agile/Scrum, Test-Driven Development (TDD), Git, Web Scraping, Chrome Extensions
 - **Leadership & Strategy:** Engineering Management, IT Operations, Product Roadmapping, Budget & Cost Optimization, Mentorship
-

Professional Experience

Head of IT

Ghorer Bazar | Dhaka, Bangladesh

Sep 2024 - May 2026

- **IT Strategy & Operations:** Led technology strategy and engineering execution for a 450-employee e-commerce organization, ensuring 24/7 platform availability and scalability.
- **Team Leadership:** Managed and mentored a 20-member IT/engineering team, boosting productivity by 20% through workflow standardization and developer training.
- **ERP & Payment Integration:** Architected and developed a custom ERP for inventory sync and sales forecasting, and built an automated payment reconciliation dashboard integrating transactions from bKash, Nagad, and SSLCommerz.
- **Cloud Migration & Cost Optimization:** Managed cloud infrastructure and architecture adjustments, reducing deployment times by 30% and infrastructure costs by 20%.
- **AI Innovation & Growth:** Developed NestJS-based AI personalization features projected to increase customer engagement and revenue by 15%.
- **Web Scraping & Lead Generation:** Developed custom scraping applications to collect targeted consumer and merchant leads from multiple sites to fuel outbound marketing.

Backend Lead Software Engineer

BacBon Limited | Dhaka, Bangladesh

Sep 2023 - Aug 2024

- **Microservices Architecture:** Led the development of three scalable Laravel and NestJS API products deploying via Docker and PostgreSQL, supporting a 40% growth in concurrent users.
- **Decentralized Identity (DID) Solutions:** Researched and deployed Layer-2 ION nodes on the Bitcoin network to anchor immutable decentralized identity documents, designing core lifecycle APIs (Create, Resolve, Anchor).
- **System Optimization:** Designed a high-performance Express.js Node API and implemented message queues for inter-service communication, improving system efficiency by 25%.
- **Test-Driven Development:** Standardized testing environments (TDD, Jest), reducing development cycle time by 30% while securing 85% alignment with business objectives.

Software Engineering Manager

Bit Byte Technology | Dhaka, Bangladesh

Sep 2022 - Aug 2023

- **Team Management:** Directed a 15-engineer team building high-traffic booking and e-commerce platforms, boosting product delivery velocity by 60%.
- **Booking Platform Scaling:** Architected travel booking software integrating real-time availability APIs and Stripe payment processing, supporting 5,000+ daily bookings and 200% peak traffic.
- **Engineering Quality:** Mentored 8 engineers on code standards, reducing critical bugs by 15% and increasing overall code quality by 25%.
- **Serverless Migration:** Implemented microservices and AWS Lambda solutions for high-traffic travel functions, resulting in a 40% bug reduction.

Senior Tech Lead

Apsis Solutions Limited | Dhaka, Bangladesh

May 2021 - Apr 2022

- **Delivery & Integration:** Managed a 20-person engineering team building client-facing web products (NestJS e-commerce microservices and WMS), obtaining a 95% client satisfaction score.
- **Conversational AI:** Integrated a Rasa-based NLP chatbot, boosting conversational accuracy by 20% for enterprise clients.
- **CI/CD Pipeline Setup:** Standardized delivery pipelines to increase team deployment productivity by 30%.

Senior Full Stack Developer (Team Lead)

Quantanite | Dhaka, Bangladesh

May 2020 - Apr 2021

- **HRMS Development:** Developed a WordPress-based HRMS to automate employee onboarding, attendance, and leave management workflows.
- **Data Extraction & Chrome Extensions:** Built a custom LinkedIn scraping Chrome extension with configurable filters, automating lead extraction directly to Google Sheets.
- **Real-time Monitoring:** Built a real-time analytics monitoring tool utilizing Node.js, React.js, and Redis caching.

Manager, Software and Product

HandyMama | Dhaka, Bangladesh

May 2019 - Apr 2020

- **Service Marketplace:** Led the engineering lifecycle for a handyman service marketplace, integrating Stripe, Google Maps APIs, and launching the company's mobile application.
- **Serverless Transition:** Spearheaded a migration towards serverless architecture on AWS, accelerating deployment speed by 25%.

Software Engineer

Abridge IT Limited | Tokyo, Japan

Jul 2017 - Aug 2018

- **Full-Stack Delivery:** Built full-stack web applications using Node.js, Vue.js, and Laravel for Japanese enterprise clients.
- **Interactive Development:** Utilized Unity 3D engine to build interactive multi-platform experiences.

Software Engineer

Tiger IT Limited | Dhaka, Bangladesh

Apr 2013 - Jun 2017

- **Election Management Software:** Contributed to the Election Management Device (EVM) desktop systems utilized in pilot election implementations under the Bangladesh Election Commission.
- **Fintech Platforms:** Contributed to BuyFi, a merchant intelligence application converting transaction data into target marketing workflows.
- **Multi-stack Systems:** Developed features using PHP, Grails, C#, and WPF.

Junior Software Engineer

Nascenia IT | Dhaka, Bangladesh

Jul 2011 - Apr 2012

- **Web Applications:** Built responsive layouts and custom modules using PHP, WordPress, and Ruby on Rails.

Education

- **M.Sc. in Software Engineering** (Defense Candidate 2026)
Daffodil International University | Dhaka, Bangladesh
- **B.Sc. in Computer Science and Engineering** (2011)
Patuakhali Science and Technology University | Patuakhali, Bangladesh

Certifications

- Technical Product Management — LinkedIn Learning (2022)
- Software Architecture Foundation — LinkedIn Learning (2022)
- New Manager Foundations — LinkedIn Learning (2022)
- Be the Manager People Won't Leave — LinkedIn Learning (2023)
- Succeeding in Web Development — LinkedIn Learning (2020)
- International English Test (C1/C2 Level, 2026)

Additional Information

- **Languages:** English (Fluent), Bangla (Native), Hindi (Conversational), Japanese (Basic)
- **Workflow:** AI-native developer workflow (Cursor + Claude + OpenCode daily)
